The Faculties, for intellectual abilities, moral worth and professional acquirements, will compare fave rable with the most distinguished in our coun try. The medical faculty constitutes an anomaly in this or any other country-all of them are able lecturers and the best of teachers.

Those who will contemplate our geographical position, and the extent of our population, can have no doubt as to the eligibility of our situation for an enterprise of the kind. As to health, including all seasons of the year, we deny that ANY OTHER CITY HAS MORE.

A common error exists in the minds of many students relative to the place of studying medicine; those who intend practicing among the diseases of the West and South should certainly educate themselves at a school whose faculty are practically acquainted with those diseases.

That the public may be satisfied of the permanency of this school, we feel it our duty to state, that the Trustees and Faculty form a unit in action which augurs well for its tuture success; and that the peculiar internal organization which connects them, cannot be interrupted. E. W. M. KING.

CELEBRATED GERMAN BITTERS,

PREPARED BY DR. C. M. JACKSON, AT THE GERMAN MEDICINE STORE, 120 Arch Street, Philadelphia.

Their power over the above diseases is not excelled, i equalled, hy any other preparation in the United States as the cures attest, in many cases after skilful phytcians, These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs,

they are, withal, safe, certain and pleasant. READ AND BE CONVINCED.

Chas. Robinson, Esq., Easton, Md., in a letter to tr. lackson, Jan. 9, 1850, said—

"My wife and myself have received more benefit from your medicine than any other we have ever taken for the Dyspepsia and Liver disease."

"The Tenth Legion," published at Woodstock, Va., Jan. 10, 1850, said—

"A GREAT MEDICINE" "A GREAT MEDICINE"

"We have uniformly refrained from recommending to the public any of the various Patent Medicines of the day, unless thoroughly convinced of their value. Among those we consider worthy of notice is the German Bitters, invented by Dr. Hoofland, and prepared by Dr. Jackson, in Philadelphia. One instance in particular, in which the superior virtues of this medicine have been tested, has fallen under our observation. During the last summer, a son of Mr. Abraham Brabill, of this country, was very seriously afflicted with Liver Complaint, and after trying in vain various remedies, he purchased a bottle of the Bitters and after using it, was so much relieved of his distressing malafter using it, was so much relieved of his distressing malady that he procured another bottle, and is restored entire-

The "Philadelphia Democrat." the reading German journal of Philadelphia. The editor said, Nov. 24th—

"We again call attention to the removal of the German Medicine store, the principal depot for the sale of Dr Hoofland's German Bitters, from 278 Race to 120 Arch street, one door below Sixth. Owing to the increased demand for this medicine, and for the accommodation of his numerous patients, Dr. Jackson has been compelled to occupy a larger store. We wish him success in his new quarters; he is deserving of it. The Bitters Mixture is without doubt the greatest medicine extant for diseases of the Liver and Bowels. A stubborn case of Chronic Diarrheea has come Bowels. A stubborn case of Chronic Diarrhom has come under our notice, wherein the patient had exhausted the Materia Medicas of the different schools of medicine with under our notice, wherein the patient had exhausted the Materia Medicas of the different schools of medicine with no apparent benefit. He was induced to use these bitters, and a few bottles of them have entirely cured him: Many uch cases we could refer to. We hope our readers will recollect this great restorative, should they be so unfortunate as to require its use. Dr. Jackson possesses the original unpublished receipt of Dr. Hoofland, and he prepares, this medicine with this care. Those purchasing should call at his store, or see that his name is written upon the wrapper outside, and blown in the bottle, as imitations of all good articles are common."

Judge M. M. Noah, a gentleman with great scientific and literary attainments, said in his "New York Weekly Messenger, Jan. 6, 1850,

"Dr. Hooflaku's German Bitters.—Here is a preparation which the leading presses in the Union appear to be unanimous in recommending, and the reason is obvious. It is made after a prescription furnished by one of the most celebrated physicians of modern tim s, the late Dr. Christopher Wilhelm Hoofland, Professor to the University of Jena, Private Physician to the King of Prussia, and one of the greatest medical writers Germany has ever produced. He was emphatically the enemy of humbug, and therefore a readicine of which he was the inventor and enuiverer may recommend the present and therefore

the greatest medical writers Germany has ever produced. He was emphatically the enemy of humbing, and therefore a medicine of which he was the inventor and endorser may be confidently relied on. He specially recommended it in liver complaint, dyspepsia, debility, vertigo, acidity of the stomach, constipation, and all complaints arising from a disordered condition of the stomach, the liver and the intestines. Nine Philadelphia papers express their conviction of its excellence, and several of the editors speak of its effects from their own individual experience. Under these circumstances we feel warranted not only in calling the attention of our readers to the present proprietor's (Dr. C. M., Jackson's) preparation, but in recommending the ar-C. M. MORE EVIDENCE. The "Phil: delphia Saturday Gazette," the best family newspaper published in the United States, the editor says of

DR. HOOFLAND'S GERMAN BITTERS. "It is seldom that we recommend what are termed Patent Medicines to the confidence and patronage four readers, and therefore, when we recommend Dr. Hoofland's

ers, and therefore, when we recommend Dr. Hoofland's German Bitters, we wish it to be distinctly understood that we are not speaking of the nostroins of the day, that are noised about for a brief period and then forgotten after they have done their guilty race of mischief, but of a medicine long eltaclished, universally prized, and which has met the hearty approval of the Faculty itself.

Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last three years, and the strongest testimony in its favor, is, that there is more of it usep in the practice of the regular Physicians of Philadsiphia than all other rostroms combined, a fact that can easily be established, and fully proving that a scientific preparation will meet with their quiet approval

that can easily be established, and fully proving that a scientific preparation will meet with their quiet approval when presented even in this form.

That this medicine will cure liver complaint and dyspepta, no one can doubt, after using it as directed. It acts specifically upon the stomach and liver—it is preferable to calomel in all bilious diseases—ihe effect is immediate.—They can be administered to female or infant with safety and reliable benefit, at any time
